

CRUD operations in document database

Aim:

to CRUD operations in document database College management Database in SQL

Step 1: Create database

```
CREATE DATABASE college DB;
```

```
USE college DB;
```

Step 2: Create Tables

```
CREATE TABLE students (
```

```
  student_id INT PRIMARY KEY AUTO INCREMENT
```

```
  name VARCHAR (100)
```

```
  roll.no VARCHAR (20) UNIQUE
```

```
  department VARCHAR (50)
```

```
  age INT
```

```
);
```

```
CREATE TABLE COURSES (
```

```
  Course_id INT PRIMARY KEY AUTO INCREMENT
```

```
  Course_name VARCHAR (100)
```

```
  Course Code VARCHAR (20), UNIQUE,
```

```
  Credits INT
```

```
);
```

```
CREATE TABLE Staff (
```

```
  Staff_id INT PRIMARY KEY AUTO INCREMENT
```

```
  Name VARCHAR (100)
```

```
  Role VARCHAR (50)
```

```
  department VARCHAR (50)
```

```
);
```

Step 3: INSERT RECORDS

```
insert into students (name, roll.no, department, age)
```

```
values ('Alice Johnson', '8101', 'Computer Science')
```

```
insert into students (name, roll.no, department, age);
```

```
('Bob Smith', '8102', 'mechanical', 2);
```

```
('Charlie Brown', '8103', 'Civil', 1);
```

COURSES:

INSERT INTO SOURCES (Course name, Course code, Credits)

VALUES

('Database Systems', 'CS301', 4)

('Mechanics', 'ME201', 3)

('Structural Analysis', 'CE101', 4)

Staff

Insert into Staff (name, role, department) Values

('Dr Smith', 'professor', 'Computer Science')

('Dr Anne', 'HOD', 'Civil')

Step 4: Read Query Records

Select * from Student where department = 'Computer Science'

S.NO	Name	Roll no	Department	age
1	Alice	8101	Computer Science	20

Select * from Course where Credits = 4

S.NO	Course	Course code	Credits
1	Database System	CS301	4
2	Structural Analysis	CE101	4

LEVEL TECH - CSE	
EX NO.	10
PERFORMANCE (5)	5
RESULT AND ANALYSIS (5)	5
VIVA VOCE (5)	5
CORD (5)	-
TOTAL (20)	15
DATE	20

17/10
Result:

Thus, the CRUD Operations in documents database is
